## *Harvest Happenings*

The last few mornings have reminded us that fall is just around the corner. We are gearing up for our new cohort of AHEC Scholars which will represent our most diverse group to date in terms of program majors. Also, recruitment for preceptors has started for IUSM's third-year family medicine rotations for the 2022-2023 school year. We will continue to offer online job shadowing for our high school students as well. We encourage you to reach out to us with any program priorities within your facility or region.

## Meet our Current Scholars!

Alison Van Doren,  
Physical Therapy  
IUPUI

Lillian Wight,  
Public Health  
IU Bloomington

Jessica Craven,  
Physical Therapy  
IUPUI

Haddie Katz,  
Nursing  
Ivy Tech- Bloomington

Mary Schiff,  
Speech Pathologist  
Therapy  
IU Bloomington

# Just In! Your New Fall Faves

## Virtual Job Shadowing Summer Camp

SCI AHEC had the opportunity to host a summer Virtual Job Shadowing program for a group of students. This program allowed students to learn about different career pathways of their interest. They had the opportunity to watch videos of employers speaking about their career, what their day-to-day job responsibilities include, & research about what it takes to be in that profession.

Not only did the students get to learn about different careers, but they also had the opportunity to explore salaries in specific careers, job openings throughout Indiana, and learn how to make a resume.

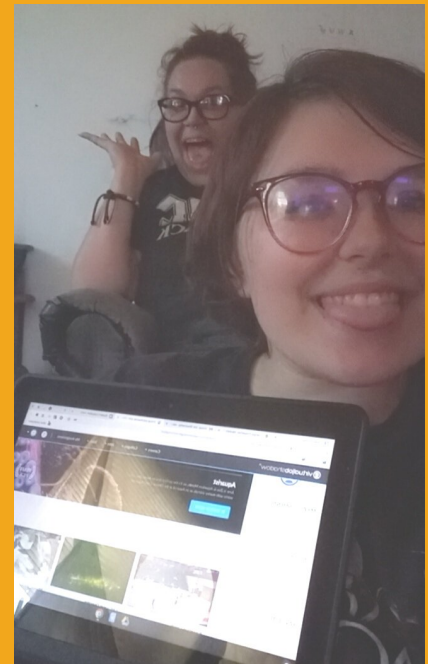

"I was apart of the program and I loved it! I learned many things about different career paths and the amount of schooling it takes! it really opened my eyes on what I want to do! "

-Lisa Arthur, Mitchell High School Student

"This program is easy to use and I can understand it very easily. It's very useful and is a big learning opportunity."

-Neveah Jones, Mitchell High School Student

## Pipeline Activities -College Visits

[ahec@hoosieruplands.org](mailto:ahec@hoosieruplands.org)

For Fun Friday, Mitchell High School's health science students had the opportunity to visit Vincennes University (VU). Students were able to explore all health science programs that are offered through VU. Students were also able to learn more about other careers such as: Physical Therapy Assistant, Surgery, Nursing, & Health Technology.

## Clinical Placements

**Alexandra Muhlbach, Clinical Education Coordinator**

[amuhlbach@hoosieruplands.org](mailto:amuhlbach@hoosieruplands.org)

In partnership with the Indiana University School of Medicine, SCI AHEC assists the school in coordinating the Family Medicine Clerkships for students placed in the South Central region. Below are some of the students who spent time in the region over this past quarter.

**James Brent**

James is interested in pursuing family medicine, physical medicine & rehabilitation, or psychiatry as a specialty. He originally became interested in medicine because he has always liked to help people and he feels this career would be the best use of his skills to benefit society. From James' time in the South Central region, he takes away a new holistic perspective on patients & a better understanding on how social determinants of health may affect patient care.

**Maria Barron**

Maria is currently undecided in which specialty she would like to pursue, however, she is interested in learning more about anesthesiology. She originally became interested in medicine when she developed septic shock and kidney failure as a child from a serious Staph infection that nearly claimed her life. Since then, she has wanted to pay it forward and pursue a medical career. During Maria's time in the South Central region, she takes away that you should always dig deeper as a physician to learn more about the patient and their history. She explains that it is important to recognize that the most likely diagnosis may not be most likely for your specific patient.

# AHEC Scholars Program

Emily Webb, Scholars Lead

**Exciting News! SCI AHEC hit a record high number of applicants this year!**

The SCI AHEC Scholars Program has **19** new scholars from a wide variety of different backgrounds, majors, and schools. The schools represented include: IU-Bloomington, IU-Southeast, Ivy Tech-Bloomington, Ivy Tech-Madison, Indiana Wesleyan University, and Marian University!

We are excited to have had the opportunity to work with so many pillars of our community to reach these students this year! We want to thank our partners for helping us recruit for the 2021-2023 cohort.

Additionally, we are grateful for all of the connections to community events, trainings, and volunteer opportunities that are provided to our scholars by our partners! Without our partners, the Scholars Program would not be possible.

## Meet our 2021-2023 Cohort Scholars!

Hussain Alqahtani, Anthony Moseman, Selena Santiago, Ashley King, Amber Shelton, Mounzir Miss, Teresa Grizzle, William Fellows, William Ham, Tearia Butler, Sarah Collins, Spencer Hofschulte-Beck, Colin Kemker, Penny Deon, Justice Robey, Susan Brandenburg, Lauren Kwan, Korlu Sorsor, Minhwa Choi
